

In the Drawings

Please enter the enclosed replacement sheet 2/6 of formal drawings in the above-referenced application in place of sheet 2/6 originally filed. An annotated sheet 2/6 is included showing the changes.

Acknowledgment of receipt of the formal drawings and their acceptance into the file is requested.

Enclosures: One (1) replacement sheet of formal drawings
One (1) annotated sheet

REMARKS

The drawings are amended in the included replacement sheet. The amendment to the drawings does not add new matter since it merely brings Fig. 4 into conformity with the structures shown in Figs. 5 and 6 and described in paragraphs 36 and 41 of the present specification. Specifically, the positioning of body 4 and lid 6 to form purge exit port 34 in Fig. 4 now corresponds to the positioning of like features in Figs. 5 and 6. Paragraphs 36 and 41 of the present specification expressly describe the structure as now clarified in amended Fig. 5.

Applicant requests approval of the drawing amendment in the next Office Action.

Respectfully submitted,

Dated: 27 Sep 2006
